

# Liability Coverage

March 2, 2015

A key to attracting and retaining well qualified directors is to ensure they have adequate liability coverage. Policies are constantly changing, as are the premiums being charged. In addition, outside of formal insurance, there are aspects of liability coverage that experienced and knowledgeable directors also expect, or consider advisable, to establish.

Our liability services involve an analysis of current and alternative policies and premiums, director service agreements and competitive practices.

Contact us for director liability coverage review.
